Silent Auction - Live Auction Kids Activities

Over the past 13 years Andrea has been battling a progressive brain tumor which has become more aggressive in the last couple months. There have been many changes to her treatment plan with chemo and radiation since February, with limited options remaining. She draws strength from her family and friends and frequently reflects on the impact she had on so many patients and their loved ones' lives during her nursing career at Cedar Valley Hospice and Mayo Oncology. As Andrea has so eloquently said herself, "there will be bumps that feel like mountains, but I remain positive knowing I have a beautiful family to fight for." #thematters #greymatters
