KWWL SkyCam Addition

Exciting news for New Hampton! With the help of Jay Jurens & the NH School District, KWWL is working on placing their next SkyCam on the roof of the elementary school building. This will provide great beauty shots of the downtown retail district,

the residential area to the northwest highlighting the iconic water tower and a great western view allowing them to better track incoming storms. They are hopeful this will be up and running sometime in the next month or so. Keep an eye out for these new promos as this will provide some additional exposure to the New Hampton community and Chickasaw County in general!
