

First Day of Spring
Tuesday, March 19!

Over 40 vendors will be on site with lunch available for purchase and all funds going towards the CEC!

THE CITY OF NEW HAMPTON NEEDS YOUR ASSISTANCE!

The EPA recently revised the Lead-Copper Rule and is requiring citywide inventories across the country to be completed for lead service lines by October 16th, 2024. A water service line is the connection between the water distribution pipe (water main in the street or right-of-way) and the water meter in your home or business. If lead service lines are discovered, you may be eligible to receive funding to have those lines replaced.

This is mandatory for the City of New Hampton to complete. As of to-date, only 728 properties out of 1,679 have completed the survey. Failure to submit will result in a fine and City Staff having to enter your structure at a later date to verify. Please fill out a separate survey for each property you own within the City of New Hampton. **All surveys within the City shall be returned or completed by no later than June 1st, 2024, in order for staff to get all information entered and submitted to the DNR and EPA.** [Click here to view or complete the survey.](#)

If you have any questions or would like to schedule an appointment for assistance in completing the survey, please feel free to reach out to Casey Mai, Public Works Director at 641-557-8244 or by email at nhpublicworksdirector@gmail.com.
